Year:	2024
Condition:	New
Engine type:	
Length:	16 ft (4.88 m)
Beam:	6 ft (1.83 m)

Description

Available Offsite: Virgina

Vision Marine Phantom

ePropulsion Navy 3.0 Motor

The Phantom is an incredibly recyclable boat manufactured from high-grade plastic (Polyethylene) – It's thick rotomolded plastic hull offers a very high impact-strength and a lifetime warranty. The lightweight hull is purposefully designed for electric propulsion and easy hauling. Its built on a self bailing platform that allows it bail out water automatically.

The Phantom is expertly designed with a specialized compartment at the rear, tailored to house your chosen propulsion package. This innovative feature highlights the vessel's versatility, accommodating various propulsion systems to suit your specific needs.

We're proud to showcase Vision Marine Technologies at all our Florida showrooms, including:

Ft. Lauderdale, Stuart, Palm Beach, Sarasota, and Tampa Bay.

Engine 1

- ePropulsion
- Navy 3.0 Motor
